

# Therapies for Hope

Bringing customized therapy programs to children with developmental disabilities in underserved communities in the greater Denver area.

## Customized Therapy

Our customized therapy programs help children with intellectual, social, language and physical disabilities develop the skills and confidence to reach their full potential.

## Therapy Intensives

Therapy Intensives group children together based on age, diagnosis, current capability, and developmental need. Dedicated therapists work with the group and with each individual child toward their specific goals. These therapists specialize in Physical, Occupational, Speech, Music, Art, and Behavior and work together to maximize the growth of each child.

## Serving the Under Served

Therapies for Hope will provide customized therapy programs to children with developmental disabilities in underserved communities in the greater Denver area.

## Long Term Partnerships

After an Intensive is complete, Therapies for Hope will work with families and their in-home and school-based therapists to share a therapy report which contains results and recommendations to ensure there is a common understanding of the most appropriate goals and strategies for each therapy child. This collaborative team will continue to work together to track progress over the long term for the therapy child and their family.

***Being witness to and helping facilitate and enable a child's next step toward personal achievement, social connection and independence is priceless!***

## Our Mission

- ♥ Provide interdisciplinary therapy "Intensives" for children with intellectual, social, language and physical disabilities
- ♥ Focus on families from historically underserved communities in the greater Denver area
- ♥ Ensure those children develop the skills and confidence to reach their full potential as individuals and members of their communities
- ♥ And address the unique challenges and needs of the entire family by providing a mix of recreational, educational, and respite services to siblings, parents, and guardians

## Measurable Success

We set quantifiable goals each year to measure our progress toward our mission. This enables us to analyze our success and continue to revise and refine our processes.

Goals for 2023:

- ♥ Provide interdisciplinary therapy “Intensives” for 100 children, with developmental disabilities in underserved communities.
- ♥ Achieve 90% satisfaction or greater from Parent/Guardian/Family for services rendered.
- ♥ 85% of children enrolled in Therapy programs improve on baseline measures.

## Therapies for Hope Team

Therapies for Hope is a team of passionate individuals with decades of combined experience working with children with developmental disabilities.

If you are a Licensed Therapist, Mental Health Professional, Special Educator, or General Ed teacher and would like to work one or more of our Intensives weeks, please send your resume to [Info@TherapiesForHope.org](mailto:Info@TherapiesForHope.org).

If you are a parent of a child with developmental disabilities such as autism, intellectual disability, cerebral palsy between 6 months to 18 years old, and want more information, contact us.

## Partnering with Community Organizations

Our Community Partners connect us with distinct cultural communities in the Denver Area and help us understand their unique needs.

## Our Programs

See our website for dates and information.
